

Xunantunich Maya Ruin Tour

While there are many Mayan ruins across Belize, one of the most impressive archeological sites is at Xunantunich, located across the river from the village of San Jose Succotz in Western Belize. The core of Xunantunich occupies about 2.6 km² (1 square mile), consisting of a series of six plazas surrounded by more than 26 temples and palaces. One of its structures, the pyramid known as “El Castillo,” the second tallest structure in Belize (after the temple at Caracol), at some 40 meter (130 ft)) tall. This site is less than 1.5 km (1 mile) from some lovely rapids of the Mopan River and provides an impressive view of the entire river valley.

Our tour duration:

Trip Leaves at 8:00am and returns at 3:00pm
